

How to find Gouvia Marina in Corfu?

Taxis need approximately 20 mins from the airport to the marina. They can drop you by the meeting point - where the **red arrow** points at the above marina layout.

At the meeting point you will be welcomed by Corfu Yacht Base staff. They will be happy to instruct you further on briefing and check-in procedures.

We spare no effort in trying to deliver a properly checked, cleaned yacht as early as possible. You can help us achieve this if we know **your arrival details** well before your charter.
